

WRAP UP REPORT FOR INTERACT CLUB

Title: Career Talk

Date: March 21st, 2020

Location: Bambino High School

The goals of the event was to insure the senior classes have a well-organized career talk. The main goal is to provide the right platform for ushering students into the next level of education. By enlightening them further as they chose their paths.

We had a total of seven speakers one Accountant, one auditor, two civil engineers, one social worker, one Architect and one Communications personnel for Water Board. They encouraged our Form 5 and Form 4 students to make personal decisions now and focus on their goals. The speakers explained to them that every subject is of equal importance and requires enough attention for them to become whoever they dream of becoming. They managed to motivate our students and encourage them even more.

Their experiences and challenges enlightened our students and made them understand that life want always be easy but what should motivate them is the fact that their goals will one day be achieved.

Our learners were so excited and asked a number of questions. One question that carried the day was, how did you balance hard work and adolescence? The answer was simple and interesting we decided to focus and had a laid out plan from Form 1 until we sat for our exams. Note: we did face temptations and challenges, sometimes we even felt like giving up but we were determined to get this far. You can do the same if you are determined and focused it's not too late.

The president of the Rotary Club of Lilongwe further reminded them to utilize their access to the internet wisely and urged them to try and learn something new on a daily basis. She went further and advised our young men to advocate for HE for SHE because the girls do need a reminder that they too can make it in life.

Results:

- Feedback from the spectators suggest that the event was a success. They even asked us to organize another event so as to involve the junior classes but also other surrounding secondary as well as High Schools.
- The success of the event cannot be mentioned without recognizing the helping hand of the headmaster's office. His closing remarks cemented the event so well and further encouraged our students .
- The patrons on duty proved to be very helpful and well organized .
